# Index

Web Page Designing. (HTML)																																		
Exp no.	Name of the Experiment	Date of performance	Page no.	Remarks																														
1	Create a HTML file (St. Joseph Higher Secondary school) using heading, bold, italic and underline tag & save it and close it.																																	
2	Use of SUBSCRIPT and SUPERScript Element & use Font Face, Font size, Font color in a HTML file.																																	
3	<p>Create an ordered &amp; unordered list like following web page by using various types of tag.</p> <p style="text-align: center;">St. Joseph Higher Secondary School</p> <p>Sections of First year</p> <ol style="list-style-type: none"> <li>Venus</li> <li>Mercury</li> <li>Haumea</li> <li>Jupiter</li> <li>Mars</li> <li>Saturn</li> <li>Vulcan</li> </ol> <p>Sections of Second Year</p> <ul style="list-style-type: none"> <li>Pluto</li> <li>Phobos</li> <li>Uranus</li> <li>Pollux</li> <li>Earth</li> <li>Neptune</li> <li>Diebos</li> </ul>																																	
4	<p>Create a HTML file to present an information of result table like following.</p> <table border="1"> <thead> <tr> <th>Roll</th><th>Name</th><th>Class</th><th>Section</th><th>Address</th></tr> </thead> <tbody> <tr> <td>1</td><td>Abrar</td><td>11</td><td>Venus</td><td>Mohammadpur</td></tr> <tr> <td>2</td><td>Sadman</td><td>11</td><td>Mars</td><td>Farmgate</td></tr> <tr> <td>3</td><td>Faiaz</td><td>11</td><td>Mercury</td><td>Mirpur</td></tr> <tr> <td>4</td><td>Pallab</td><td>11</td><td>Saturn</td><td>Dhanmondi</td></tr> <tr> <td>5</td><td>Monir</td><td>11</td><td>Vulcan</td><td>Kalbagan</td></tr> </tbody> </table>	Roll	Name	Class	Section	Address	1	Abrar	11	Venus	Mohammadpur	2	Sadman	11	Mars	Farmgate	3	Faiaz	11	Mercury	Mirpur	4	Pallab	11	Saturn	Dhanmondi	5	Monir	11	Vulcan	Kalbagan			
Roll	Name	Class	Section	Address																														
1	Abrar	11	Venus	Mohammadpur																														
2	Sadman	11	Mars	Farmgate																														
3	Faiaz	11	Mercury	Mirpur																														
4	Pallab	11	Saturn	Dhanmondi																														
5	Monir	11	Vulcan	Kalbagan																														
5	<p>Create a HTML file to present an information in table like following table.</p> <table border="1"> <thead> <tr> <th rowspan="2">Roll</th><th colspan="2">English</th><th colspan="2">ICT</th></tr> <tr> <th>First</th><th>Second</th><th>First</th><th>Second</th></tr> </thead> <tbody> <tr> <td>101</td><td>56</td><td>78</td><td>54</td><td>65</td></tr> <tr> <td>102</td><td>45</td><td>66</td><td>60</td><td>78</td></tr> </tbody> </table>	Roll	English		ICT		First	Second	First	Second	101	56	78	54	65	102	45	66	60	78														
Roll	English		ICT																															
	First	Second	First	Second																														
101	56	78	54	65																														
102	45	66	60	78																														
6	Make relation between practical number 4 & practical number 5 using hyperlink.																																	
7	Use of bangla Font in a web page.																																	
8	Insert an image or picture in a webpage & use pic as a background.																																	
9	<p>Make a form in a HTML using command button &amp; radio button.</p> <div style="border: 1px solid black; padding: 10px; background-color: #f0f0f0;"> <p><b>A simple Data Entry form</b></p> <p>First Name <input type="text"/> Last Name <input type="text"/></p> <p>Email <input type="text"/> Password <input type="text"/></p> <p> <input type="radio"/> male <input type="radio"/> female                     Educational Qualification <input type="checkbox"/> SSC <input type="checkbox"/> HSC <input type="checkbox"/> BSC <input type="checkbox"/> MSC Division                 </p> <p>Rajshahi <input type="text"/></p> </div>																																	

C Programming				
1	Write a program using C language to find the sum and average of three inputs given by keyboard.			
2	Write a program by using C programming language to find a number is even or odd.			
3	Write a program by using C programming language to convert Celsius into Fahrenheit and Fahrenheit to Celsius.			
4	Write a program by using C programming language to find the largest number from three numbers.			
5	Write a program by using C programming language to find the roots of a binomial equation $ax^2+bx+c=0$ .			
6	Write a program by using C programming to find the summation of following series $1 \times 2 + 2 \times 3 + 3 \times 4 + \dots + N \times (N + 1)$			
7	Write a program by using C programming language to find the largest number from 10 numbers inserted by keyboard.			
8	Write a program by using C programming language to find the amount of positive and negative numbers from given 10 inputs.			
9	Write a program by using C programming language to find the factorial of a positive integer.			
10	Find the GCD of two positive number inserted by keyboard.			
11	Write a program by using C programming language to find perimeter and area of a triangle by using three sides of the triangle.			
12	Write a program by using C programming language to find a year is leap year or not using all possible conditions.			
13	Write a program by using C programming language to reverse a number.			
14	Write a program by using C programming language to convert capital letter into small letter and small letter into capital letter.			
15	Write a program by using C programming language to show a fig like following. 1 1 2 1 2 3 1 2 3 4 1 2 3 4 5			
16	Write a program by using C programming language to show a fig like following. 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1			
17	Write a program by using C programming language to show a fig like following. * * * * * * * * * * * * * * *
